EDUCATION

Bachelor of Technology
SASTRA University
07/2019 - 06/2023

Higher Secondary - Computer Science
Montfort School
06/2018 - 05/2019

EXPERIENCE

Head in Kuruksastra
Organization -Kuruksastra
08/2020 - 05/2023
Achievements/Tasks

- Served as an integral member of the Kuruksastra technical team, playing a pivotal role in the conception and construction of the official Kuruksastra website.
- Led a team of over 1000 individuals in organizing Kuruksastra, an annual fest recognized as one of the largest in South India and coordinated a diverse range of events.
- Developed and executed a comprehensive plan for the fest, ensuring smooth coordination of events and activities.

Member in E-Cell
Organization - The Entrepreneurship Cell
12/2021 - 05/2023
Achievements/Tasks

- Engaged as a vital member of the Tech E team, actively involved in the development of websites and dedicated to mentoring junior team members on pertinent topics.
- Directed and provided strategic leadership to 10 departments within the organization, overseeing a total of 300+ members. Established clear objectives and expectations for each department to ensure alignment with overall organizational goals.
- Developed and executed comprehensive strategies for each department, aligning with organizational objectives and ensuring a cohesive approach.
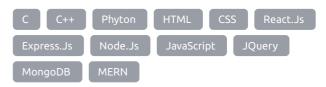

Head in Daksh
Organization - Daksh
08/2020 - 05/2023
Achievements/Tasks

- Spearheaded the successful execution of Daksh, a dynamic Technical fest at my University, attracting a robust participation of more then 500 students and creating a vibrant platform for intellectual exchange.
- Fostered partnerships with more than 40 esteemed companies, contributing to the event's industry-centric focus and providing students with valuable networking opportunities.
- Managed logistical aspects of the event, ensuring seamless coordination between student participants, companies, and speakers, contributing to the overall success of Daksh.

PROJECTS

Bunk Calculator
- Designed and implemented a sophisticated Student Attendance Management Application that seamlessly integrates with the university's database. The application allows students to access personalized attendance data by securely logging in with their credentials. Provides the number of classes that can be bunked.

FIFA Players site
- Played a pivotal role in the creation of a comprehensive Football Player Game Card Management site, enabling users to input, update, and delete game-related statistics for individual players. The site encompasses essential CRUD (Create, Read, Update, Delete) functions to streamline data management.

Everyday Blog
- Architected and implemented a user-centric web application that facilitates user registration and login functionalities, providing a secure environment for the creation and management of daily journals. The platform enables users to compose, review, and delete journal entries at their convenience.

To do list
- A to do list to note down all the works to be done. Ticking the checkbox will update the to do list.
